CORPORATE PROFILE

Many strengths. One connected world.

Finance. Technology. Creativity.
Learning. Smart infrastructure.

Connected by ambition.

bergix.com

01 / THE GROUP

One ambition.
Five specialist perspectives.

A connected portfolio spanning finance, technology, creativity, professional learning and infrastructure.

BERGIX GROUP	CONNECTED BY AMBITION
01 — Oriberg	**FINANCE & GLOBAL TRADE** Asset finance, trade credit, sourcing and supplier payments.
02 — DigitalBerg	**CLOUD & IT INFRASTRUCTURE** Hosting, dedicated compute, security and IT support.
03 — Pixiberg	**BRAND & DIGITAL GROWTH** Brand identity, websites, software and marketing.
04 — Arsberg	**PROFESSIONAL LEARNING** Certification preparation and corporate development.
05 — ICSberg	**SMART INFRASTRUCTURE** Engineering, data centres, ICT and intelligent buildings.

A practical entry point

Start with the specialist business that matches your requirement, or contact the group for a brief spanning several disciplines.

Specialist expertise.
A shared ambition.

Bergix brings together businesses that help organisations grow, innovate and operate more effectively across markets.

A connected business ecosystem

Finance, technology, creativity, learning and engineering often meet within the same business challenge. Bergix provides a clear entry point for the relevant specialist expertise.

From strategy to execution

Each company focuses on its own discipline. Requirements spanning several fields begin with a conversation to identify responsibilities, dependencies and the next step.

Connecting businesses.
Enabling growth.

Finance that connects trade and opportunity.

Asset finance, trade credit and sourcing support for businesses managing working capital, essential assets and international procurement.

01

Trade credit

Supplier credit and payment structures for eligible importers and traders.

02

Asset & equipment finance

Finance enquiries for essential equipment and operational assets.

03

Global sourcing

Procurement support for produce, spices, chemicals and industrial goods.

04

Supplier payments

Payment coordination and structures supporting cash-flow flexibility.

05

Investment financing

Assessment of eligible investment-focused financing opportunities.

06

Insurance services

Business insurance enquiries alongside the finance portfolio.

Finance availability and approval depend on eligibility, documentation and agreed terms. Request a current proposal.

04 / DIGITALBERG

Built for the way your business runs.

Cloud hosting, dedicated compute and IT services for developers, businesses and organisations.

Choose the resources

Hosting and compute options for different workloads. Confirm the plan, location and configuration against your requirements.

Define the service scope

Agree monitoring, management, security and backup responsibilities for the selected package.

FROM REQUIREMENT TO CONFIGURATION

01 Workload

02 Resources

03 Service scope

Backup management	Not included	Included	Included
Security recommendations	Not included	Included	Included
On-site response target	Not stated	6 hours	6 hours
Website management	Edits only	Edits only	Edits only
Security remediation / recovery	Not included	Not included	Not included

*The source schedule does not specify the unit or period for on-site support, audit or maintenance counts. Confirm these, minimum users, taxes, locations, response conditions and current prices in the written proposal. Backup management is separate from hosting backup capacity.

06 / PIXIBERG

Creative thinking. Business-focused delivery.

Brand strategy, design, software and marketing that help organisations communicate clearly and create useful digital experiences.

01

Brand strategy & identity

Positioning, visual identity and corporate communication.

02

Web & ecommerce

Business websites, online stores and digital experiences.

03

Software & mobile apps

Applications designed around business and user needs.

04

UI / UX design

Interfaces, customer journeys and product usability.

05

Digital marketing & SEO

Search visibility, campaign planning and performance measurement.

06

Graphic design & motion

Print, digital design, animation and multimedia production.

Begin with the objective, audience and existing brand materials. Agree deliverables and measurement before production.

pixiberg.com

07 / ARSBERG

The art of professional mastery.

Professional learning and certification preparation for individuals, teams and corporate development programmes.

01

Project management

PMP and PRINCE2-focused preparation and delivery knowledge.

02

Agile & Scrum

Agile practices, Scrum frameworks and professional development.

03

IT service management

ITIL and service-management knowledge for technology teams.

04

Cloud & technology

AWS, Azure, Microsoft technologies and Red Hat learning.

05

Cybersecurity

Role-focused security knowledge and technical capability.

06

Leadership & team learning

Management development, practice assessments and learning paths.

Confirm formats, prerequisites, accreditation and examination arrangements. Preparation does not itself confer certification.

arsberg.com

Engineering smarter connected environments.

UAE-based engineering and technology solutions for smart cities, digital infrastructure and modern enterprise environments.

01

Digital infrastructure

ICT systems, communication networks and infrastructure planning.

02

Data-centre engineering

Design, construction, automation, operations and maintenance.

03

Smart buildings & cities

Intelligent systems, building automation and IoT integration.

04

ICT, ELV & security

Structured cabling, access control and surveillance systems.

05

MEP & building engineering

Mechanical, electrical, plumbing, lighting and building systems.

06

Enterprise & command centres

Cloud, DevOps, cybersecurity and operational facilities.

Start with the site, design stage, technical requirements and constraints. Confirm project credentials and delivery scope.

bergix.com

09 / CONNECTED SOLUTIONS

Business challenges. Connected expertise.

A practical view of where the group companies can contribute to a wider business brief.

01	Expand international trade	**ORIBERG** Transaction value, sourcing needs, payment terms and trading parties.
02	Launch a digital business	**PIXIBERG + DIGITALBERG** Brand, customer journeys, website or application, hosting and support.
03	Develop a connected facility	**ICSBERG + DIGITALBERG** Engineering systems, network architecture, compute and operational needs.
04	Build team capability	**ARSBERG** Roles, learning objectives, delivery formats and certification requirements.

The relevant company, responsibilities and commercial terms are established for each engagement.

A clear route from ambition to brief.

The right expertise begins with understanding the business need, then defining the scope of the engagement.

01

THE OBJECTIVE

Understand

Share your business context, intended outcomes and priorities.

02

THE EXPERTISE

Scope

Identify the disciplines, systems and dependencies involved.

03

THE BRIEF

Define

Agree deliverables, timing and decision-making responsibilities.

04

THE NEXT STEP

Engage

Confirm the relevant company and commercial arrangements.

Specialist delivery. Shared ambition.
